WHY IS ACTION ON CLIMATE CHANGE NEEDED?

Climate change is a crisis that is already affecting millions of people. Droughts, floods, hurricanes and typhoons are occurring more often and are becoming more severe. All over the world people are implementing practical solutions to the crisis that can reduce our reliance on fossil fuels.

We all, individually, need to play our part in moving towards low carbon living by making practical changes to reduce our impact on the environment.

THANK YOU FOR MAKING YOUR PERSONAL PLEDGES TO SHOW YOUR COMMITMENT TO SUSTAINABLE LIVING.

Another action we can take is to influence our political leaders and press them to commit to a reduction in carbon emissions.

TRANSITION MK IS ASKING OUR LOCAL MPS TO ENSURE:

1. The pledges made at the UN Conference on Climate Change (COP21) in Paris in December are reflected in ambitious UK Government policies to reduce the UK's carbon footprint
2. There is a new FiT (Feed in Tariff) regime that supports small-scale renewable energy installations by households and community energy groups
